INDEX OF SUBJECTS.

Adenoma of the endometrium, 72
Adeno-myoma of the uterus, origin of, 436
Adhesion of the placenta, 283
Adhesions, abdominal pain from, 438
Anæsthesia in labour, use of spinal, 54
— by means of skopolamin and morphia, 143
Anuria, post-operative, 219
Apoplexy of the ovary, 225
Appendicitis and pregnancy, 360
Appendix vermiformis in tubal pregnancy, decidual cell formation on the, 207
Ascites with pelvic symptoms, 223
Aspirin, the physiological and therapeutical action of, 440
Atmocausis, examination of the uterus after, 440

Bacillus aerogenes capsulatus in puerperal infection, the, 429
Bier's hyperæmic treatment to gynæcological disease, on the application of, 156
Bladder, intra-peritoneal rupture of the, 354, 447
Blood accumulations in double uterus, 139
Blood-agar plates in obstetric work, the employment of, 427
Bossi's dilator, the employment of, 208
— — observations on, 233
— — after effects of using, 365
Bougie method, the artificial termination of pregnancy by the, 127
British Gynæcological Society, 72, 150, 223, 297, 380, 444
Broad ligament, fibromyoma of the, 376
— — hæmatomata of the, 447

Cæsarean Section, three cases of, 200
— — vaginal, 209
— — in a case of myasthenia gravis gravida, 260
— — following fixation of the uterus, 364
Cancer of the breast with secondary invasion of a uterine fibroid, 66
— uterine fibroids and corporeal, 154
— of the uterine cervix, 373
— of the uterus, surgical intervention in, 380
— of the corpus uteri, 446
— removal of the uterus for cervical, 447
Carcinoma and statistics, 220
— of the ovary, 223
— of the cervix after subtotal hysterectomy, 295
— uteri, inoperable, 381
— of the ovary, three cases of primary, 408
Cell formation on the appendix vermiformis in tubal pregnancy, decidual, 207
Cervix in obstetric work, on dilatation of the, 281
— after sub-total hysterectomy, carcinoma of the, 295
— uteri, "grape-like" sarcoma of the, 297
— cancer of the uterine, 373
— rupture of, with a dilator, 426
Child, on perforation of the living, 424
— of eight, an ovarian tumour in a, 433
Childbed, mortality in, 315, 442
Chorion-epithelioma, lutein cysts in association with, 216
— — the spontaneous cure of a, 293
Chorion, ovarian changes in vesicular disease of the, 133
Chyluria complicating pregnancy, 296
Cord, injection of stovaine into the spinal, 55
Cornu, pregnancy in a rudimentary uterine, 296
Corpus luteum, the development and retrogression of the, 378
Corpus uteri, cancer of the, 446
Curetting, some curiosities of, 449
Cyst of the ovary, intra-peritoneal hæmorrhage due to the rupture of a hæmorrhagic, 63

— the involvement of the Fallopian tube by growth from an ovarian, 372
— in the spleen, simulating an ovarian cyst, hydatid, 413
Cystocele, a new operation for the cure of vaginal, 187, 222
Cystoma, double ovarian, and uterus affected with melano-sarcoma, 230
— large hydronephrosis mistaken for ovarian, 383
Cysts in association with vesicular mole and chorion-epithelioma, lutein, 1, 97
— in association with chorion-epithelioma, lutein, 216
— multiple parovarian, with fibroid of the uterus, 226
— of the ovary, dermoid, 226
— relationship of broad ligament, to hydrosalpinx, 293

Delivery, uterine inversion occurring six days after, 368
Deportation of villi and its significance, 206
— the fate of placental emboli after their, 206
Dermoid, with torsion of the pedicle, complicating pregnancy, ovarian, 384
Diagnosis, a difficulty in, 226
— hæmorrhage, with difficulty in, 375
Dilatation of the cervix in obstetric work, on, 281
Douglas's pouch, calcified tumour in, 379
Dysmenorrhœa, stem pessary for, 289
Eclampsia, treatment of puerperal, by thyroidin, 134
— case of repeated, 283
— in pregnancy, treatment by parathyroid extract, 359
Eclampsia, the placenta in puerperal, 418
— the poison in, 419
Edinburgh Obstetrical Society, 74, 155, 449
Emboli, the fate of placental, after their deportation, 206
Embolism following operation, 145
Embryoma tubæ, 141
Emphysema in obstetric practice, subcutaneous, 276
Endometritis, two cases of cystic, 321
— discussion on the treatment of chronic, 299
Endometrium, adenoma of the, 72
Epileptiform attacks complicating double ovarian tumour, 73
Epilepsy and menstruation, the relation between, 217
— relation of the internal secretions to, 285

Fallopian tube, remarks on tubercular disease of the, 252, 382
— — myxosarcoma of the, 371
— — involvement of, by growth from an ovarian cyst, 372
Ferments in milk of nursing mothers, and their significance in the alimentation of the infant, 432
Fever, on the serum treatment of puerperal, 59
Fibroid with torsion of its pedicle and of the uterus, pedunculated uterine, 66
— cancer of the breast with secondary invasion of a uterine, 66
— sarcomatous transformation of a uterine, 375
— in a patient, aged 20, uterine, 379
Fibroids and corporeal cancer, uterine, 154
— pathological condition of the ovaries as a possible factor in the etiology of uterine, 433
— of the uterus, growth of, 448
Fibromyoma, two cases of uterus septus unicollis, both associated with, 167
Fibromyoma, two cases of uterus septus unicollis, both associated with, 167
— uteri, on the relative value of the various operations for, 213
— a successive series of 120 abdominal hysterectomies for, 237
— of the uterus, the choice of treatment for, 297

— of the broad ligament, 376
— and the causes which favour their production and development, uterine, 211
Fœtus, pregnancy reactions in the organs of the, 135
— twin pregnancy with one in front of the other, 358
Fœtuses of large size, birth of, 421

Gersuny's subcutaneous paraffin injection and its application to gynæcology, 141
Gestation, abdominal, 69
— tubal, 77
— ectopic, 228
Glasgow Obstetrical and Gynæcological Society, 73, 155, 230, 299, 383, 448
Grip for the estimation of the depth of the fœtal head in the pelvis, a simple, 418
Growth, solid ovarian, 382

Hæmatoma following labour, intra-pelvic, 56
Hæmatoma ovarii, metrorrhagia associated with, 446
Hæmatomata of the broad ligament, 447
Hæmorrhage due to the rupture of a hæmorrhagic cyst of the ovary, intra-peritoneal, 63
— due to sclerosis of the uterine vessels, climacteric, 155
— near the menopause, 227
— due to uterine inertia, the prophylactic treatment of post-partum, 282
— abdominal hysterectomy for severe concealed accidental, 344, 378
— with difficulty in diagnosis, 375
— due to sclerosis of the uterine vessels, climacteric, 387
Heart and circulation in pregnancy, 38
Hebotomy (extra-median symphysiotomy), 128
Hydronephrosis mistaken for ovarian cystoma, 383
Hydrosalpinx, the relationship of broad ligament cysts to, 293
Hyperemesis gravidarum, 266
Hysterectomies for Fibromyoma, analysis of a successive series of 120 abdominal, 237
Hysterectomy in the puerperium for sepsis, vaginal, 150
— for cysts of the ovary, 214
— at sixth month of pregnancy, 228
— for severe concealed accidental hæmorrhage, abdominal, 344, 378

Ileus, retroversio uteri incarcerata complicated with, 415
Index Obstetricus, 159, 308
Inertia, the prophylactic treatment of post-partum hæmorrhage due to, 282
Infants, the natural nourishment of, 61
— life assurance of, 210
Infection, treatment of puerperal, 138
— the bacillus aerogenes capsulatus in puerperal, 429
Infections, an investigation into the causation of puerperal, 121, 148
International Society of Obstetrics and Gynæcology, 234
Introductory address, British Gynæcological Society, 224
Inversion, the operative treatment of chronic puerperal, 58
— occurring six days after delivery, uterine, 368
— of the uterus in its medico-legal aspect, 422

Labour, the use of spinal anæsthesia in, 54
— intra-pelvic hæmatoma following, 56
Labours, uterine ruptures in the scars of former, 417
Lactation, syphilis and, 285
Laparotomies by Fenomenoff, one thousand, 287
Leucocytosis, the origin and import of, 68
Life Assurance of Infants, 210
Lungs, congenital syphilis of the, 194
Melano-sarcoma, double ovarian cystoma and uterus affected with, 230
Menopause, hæmorrhage near the, 227
Menorrhagia and hæmoptysis, treatment by inhalation of nitrite of amyl, 437

Menstruation, the relations between epilepsy and, 217
Metrorrhagia associated with hæmatoma ovarii, 446
Milk, a case of bloody, 62
— of nursing mothers, times at which various soluble ferments appear in the, 432
Mole, lutein cysts in association with vesicular, 1, 97
— ovarian changes associated with syncytial tumours and vesicular, 369
— changes in the ovaries in connection with vesicular, 370
Mortality in childbed, 315, 442
Myasthenia gravis gravida, Cæsarean section in, 260
Myoma, some cases of uterine, 230
Myomata, three unusual, 65
— abdominal total extirpation of the uterus with sagittal section of the cervical stump in cervical, 434
Myomectomy followed by pregnancy, abdominal, 228
Myxosarcoma of the Fallopian tube, 371

Neoplasms, two cases in which enlarged wandering spleens simulated pelvic, 116
Nitrite of Amyl, treatment of menorrhagia and hæmoptysis by inhalation of, 437
North of England Obstetrical and Gynæcological Society, 152, 225, 226, 381, 446
Obstetrical cases, some interesting, 383
Obstetrical Society of London, 69, 148, 222, 296, 378, 442
Obstruction following operations for fibroid tumour of the uterus, intestinal, 30, 69
Ovaries in connection with vesicular mole and normal pregnancy, changes in, 370
— pathological condition of, a possible factor in the etiology of uterine fibroids, 433
Ovary, three cases of primary carcinoma of the, 408
— with a well-marked fibrous excrescence, an, 197
— hysterectomy for cysts of the, 214
— carcinoma of the, 223
— apoplexy of the, 225
— dermoid cysts of the, 226
— primary sarcoma of the, 229
— carcinoma of the, 223

Pain from adhesions, abdominal, 438
Paraffin injection, Gersuny's subcutaneous, 141
Parathyroid extract, treatment of eclampsia in pregnancy by, 359
Pelvis, pubiotomy and enlargement of the, 210
— a simple grip for the estimation of the depth of the fœtal head in the pelvis, 418
— amplitude of the maternal, and the birth of fœtuses of large size, 421
Peptonuria in pregnancy, in labour, and in the puerperium, alleged, 130
Perforation of the living child in lying-in hospitals, on, 424
Peritonitis, a case of acute general gonococcic, 404
— acute general gonococcic, 443
Perinæotomia mediana, 367
Pessary, in defence of the, 17, 74
— worn for fifteen years, vulcanite ring, 74
— for dysmenorrhœa, stem, 289
Placenta, adhesion of the, 283
— in puerperal eclampsia, the, 418
— the existence of a nervous reticulum in the villi of the, 421
Poison in eclampsia, the, 419
Pregnancy, a case of repeated tubal, 319
— heart and circulation in, 38
— artificial termination of, by the Bougie method, 127
— concerning the alleged peptonuria, in, 130
— ovarian changes in normal, 133
— and labour in primiparæ of 13, 14, 15 and 16 years of age, 133
— reactions in the organs of the fœtus, 135
— in the human subject, duration of, 203
— occurring in a tube which was the seat of purulent inflammation, 216

— abdominal myomectomy followed by 228
— hysterectomy at sixth month of, 228
— and labour in primiparæ of 13, 14, 15 and 16 years, 279
— unilateral compression of the ureter during, 280
— chyluria complicating, 296
— in a rudimentary uterine cornu, 296
— with one fœtus in front of the other, twin, 358
— ovarian tumours in, 358
— appendicitis and, 360
— artificial interruption of, for the purpose of curing psychoses, 363
— ovarian dermoid complicating, 384
— repeated tubal, 399
— case of primary abdominal, 438
— repeated tubal, 443
Primiparæ of 13, 14, 15 and 16 years of age, pregnancy and labour in, 133
— of 13, 14, 15 and 16 years, pregnancy and labour in, 279
Procidentia uteri, a curative operation for, 302, 349
Prolapse of uterus, treatment of, 155
Prolapsus uteri, case of fatal complete irreducible, 437
Psychoses, artificial interruption of pregnancy for the purpose of curing, 363
Pubiotomy and enlargement of the pelvis, 210
Publications received, 307
Puerperium, thrombosis and embolism during the, 60
— vaginal hysterectomy in the, 150
Reticulum in the villi of the placenta, the existence of a nervous, 421
Retroversio uteri incarcerata complicated with ileus, 415
